

for all allied health professionals (AHPs)

NHS Knowledge and Library Services can give you access to the most up to date and trusted evidence and information in healthcare today, enabling high quality decision making, learning and development, research and innovation to achieve health improvement across England, locally, regionally and nationally.

NHS OpenAthens

You need an NHS OpenAthens account to take full advantage of all these tools and resources. Anyone delivering NHS-commissioned care can apply.

Register now! Forgotten your password? [Reset it easily](#). Or watch our guide on how to [register](#).

Finding information in one place

The [NHS Knowledge and Library Hub](#) has thousands of journals, e-books, guidelines, medical databases, clinical decision support tools and providing up to date, trusted evidence and information – all online and in one place.

For more advanced searching, use [CINAHL](#), [AMED](#) and [Emcare](#). Go to our [Resources for advanced searching](#) page for more information and links to training.

If you're new to literature searching, or need a refresher, why not try this e-learning course: [How to search the literature effectively](#).

BMJ Best Practice

The national clinical decision support tool is available on desktop or app. Use BMJ Best Practice for background information about the other health conditions your patients may have.

e-books and journals

You have direct access to thousands of relevant journals via [BrowZine library](#). To access full text articles when searching the web, [Download LibKey Nomad](#) Use your trust name or 'Primary Care in England' as your organisation.

[Kortext](#) is an e-book platform that gives you access to hundreds of books for NHS staff and learners including collections on sustainability, wellbeing and resilience and equality and diversity. Many titles on the platform are relevant to allied health professionals including:

- Nutrition and Diet Therapy
- Bailey's and Love's Essential Clinical Anatomy
- Physiology at a Glance

OUP handbooks and textbooks

All staff and students on placement in the NHS have access to a collection of Oxford Medicine e-books including the Oxford Handbook series of:

- Nutrition and Dietetics
- Clinical Rehabilitation
- Medical Imaging
- Occupational Health
- Rehabilitation Medicine
- Sport and Exercise Medicine

Direct benefit to you and your patients

61% of people struggle to understand health information in words and numbers. [Our 30 minute elearning course](#) has simple tools for staff.

To address health inequalities, we need to focus on improving health literacy, digital literacy and digital access. Our [online tool](#) gives place-based geodata to identify levels of health literacy and digital access in your area.

Our co-produced, [easy read guides](#) can be downloaded for people with learning disabilities and autism, to help them navigate healthcare.

In [Your Health Collection](#) we have online resources for you and your colleagues to help patients with general health and wellbeing.

We also have [Uplifting Resources](#) to help staff wellbeing.

Understanding critical appraisal

Essential to evidence-based practice, critical appraisal helps enrich your research and learning and can be applied in a range of circumstances, such as formal or informal research projects, your professional development or while studying.

To support healthcare professionals to develop invaluable critical appraisal skills, there is an elearning programme – [Critically Appraising the Evidence Base](#).

Watch our animation

This short animation shows how NHS knowledge and library services can support you.

Local NHS support
